Benjamin Mendy

Born in 1994, Mendy is a current player at Premier League football club Manchester City FC. This professional footballer was born the 17th of July, which makes his star sign/zodiac sign cancer, he grew up in his birth town of Longjumeau France. He is an imposing character at 6ft 1 (185cm) and 84kg. Ben is a 24-year-old that has black hair and brown eyes; as you would probably guess he is very popular on social media as he is a pro player.

Mendy's football career

2000 was the year his youth career first fully kicked off. His first season began at Palaiseau-in France-where he played well for seven years. In the second half of Mendy's youth he made his first transfer to club Le Havre in 2007.

Now onto Ben's senior career...

Once again, the 24-year-old continued to play at Le Havre; in their first team not in the youth squad. His time there as a senior began the 24th July 2011 and ended in 2013. Over the course of these two seasons Benjamin made 57 appearances! After his time had come to an end, Mendy's career took a huge step forward to one of France's largest clubs Marseille. This was also the period of time when his skill improved (from 2013-2016) also while at the club he scored 2 goals which to be fair is pretty good for a defensive player. 2016 came around and he made the transfer to the Monaco first team where he didn't stay long, in fact he only played for one season and made25 appearances. Since 2017 Mendy has played at Manchester city -number 22- and as of 2018 he is yet to move club. Benjamin Mendy is also a regular in the France national team and has been for over eight years. He began his national journey in the under 17 France team and has grown with the club up to their full international squad. The first time Benjamin was called up was in March 2017; his debut match was against Luxembourg where they won 3-1.

Mendy should be in the France squad for the World Cup 2018 but unfortunately, he damaged the ligaments in his knee due to a hard tackle during a great game against Crystal Palace where the rest of the team went on to win 5-1. Andros Townsend was responsible for Mendy's Injury on September 23rd 2018, in the 29th minute, on that day no cards were given

by the referee and it wasn't a foul in the referee's eye's but many fans may feel different!

Mendy made his return in April in a 5-0 victory over Swansea City. Although playing as substitute he may not be going to World Cup 2018 as he is not at the peak of his fitness. Let's all hope Benjamin Mendy will return back to his regular, or even better, fitness and health!
